Ref: Application for Job

Dear Talent Acquisition | Human Resources,

I am writing to apply for job opportunity to drive your business in a **profitable & sustainable** way.

My **25 years+ achievements: P/L | GM | Sales | Ops | Consultant | Growth Hacker | Commercial** driven background with a strong interest in **eCommerce | New Retail (O2O) | Supply Chain | AI Technology** & a passion towards **eCommerce & operation digital strategy**. My area of focus from **market intelligent to formulate 'Go-To-Market' Digital Strategy.** I have been taking a new career challenge after leaving **Alibaba/Lazada (The leading eCommerce Marketplaces in CN & SEA)** as **GM** to **set-up the cross-border border eCommerce solutions**. And, in Jan 18, I set up **JUSTT GROUP (eCommerce Enabler/Consultant Firm)** to support **100+ brands** (i.e. **Estee Lauder, KPMG, Mckinsey, Accenture, Deloitte, EY, HKSTP, HKTDC, HSBC, 200+ Startups, Fortune 500**) to succeed in the eCommerce markets (esp. CN & SEA) by **connecting 1K+ products to 2billion+ consumers via omni-channel strategy locally, regionally, globally**. Co-founded **JUSTT BEAUTHY** (Beauty/Healthcare), achieved **80%+ growth QTQ in the 1st 12 month**.
KPI: ***1) Targeted 1.5 billion+ consumers, 2) Collaborated 30K+ merchants (10+ million products) in HK, CN, KR, 3) Built brand via marketing campaigns + demand generation channels. Achieved ~USD1 billion GMV annually, ~8 million customers, ~5 million visitors/m ~80% GMV market share, number 1 shopping APPs...***

My **strengths** equipped me to develop the **3 critical successful factors** to be succeed in the industry:
1) Identifying consumer-orientated eCommerce requirements, 2) Optimize consumer's eCommerce experiences, 3) Expedite Internal & external stakeholders' relationships along the eCommerce supply chain.

My **3 key contributions to your company:** I have been paying a lot of attention about the industry's developments, and follow up via website, social media and connection. I have suggestions (tentative):
1) to better equip with the rapid expansion of eCommerce growth in particular, during the pandemic,
2) to differentiate with other competitors (Category + Seller + Payment + Logistics) within the ecosystem,
3) to collaborate with other parties along the eCommerce+ supply chain (upstream + downstream).

I would appreciate the opportunity to **interview** for the captioned position to better understand your **implicit needs** and suggest **go-to-market (short & long-term) strategies** with aims to support your business growth in a **profitable & sustainable way**. Please find **enclosed my resume** for your review. My **current salary is varied**, and **expected salary is negotiable**. I can be reached via email at **ckft@yahoo.com** or by phone at **(852) 9783-5025**. I look forward to hearing from you soon.

Sincerely,

Terry Chan
