Founder, Association of Family Offices in Asia
Since Jan 2013 to Present

Association of Family Offices in Asia (AFO) is a professional society in Asia, registered in Hong Kong that distinctively gathers single and multi-family offices who have operations in the region. AFO advocates sustainability and supports next gen leaders & responsible corporations on impact pursuance. Through leveraging in-house talent pool & external partners, AFO offers a range of consultancy services to family principals, wealth owners and independent offices. The scope of work covers SDGs implementation, leadership development, family offices set up, family governance, philanthropy advisory, succession management, corporate finance, business transformation, international venture and specialty advisory services. Being key man bridging relationships, AFO supports single family offices in pursuing their vision and organizes activities to facilitate collaboration and co-investment among the prestige circle. Current focus of club-deals are impact projects, investing in Technology (Digital Economy, FinTech, MedTech and BioTech, etc) & direct investment in bio-chemical, health service & real estate sectors.

Organization Set Up

- Set up and manage the routine operation of the Association.
- Apply the registration with government bodies, manage all statutory filing and regulatory relationship
- Recruit senior market practitioners to join the Development Committee, Membership Committee, Technical Committee, Missions Action Group, Regional Chapters & Research Office and work closely with them to formulate strategies for organizational development, outreaching and knowledge exchange.
- Host publicity programs and educational workshops, advocate family principals & responsible corporations in making a better world. For supporting MFOs, we network extensively with the industry players for contributing to the long term development and prosperity of the industry

Market Access & Proposition Management

- Establish regional chapters in China & ASEAN countries to establish on-the-ground presence and develop strategies for market access and building partnership with institutions, commerce, societies & universities.
- Actively organize and co-host industry events, such as roadshow, investment summit & educational conference for raising awareness toward Associations and for accomplishing the missions and objectives of the AFO. These activities were held in both local and international markets.
- Promote the Association through contributing insights to industry journals, working with media and conference producers for industrial events and personally engaged in delivering speech, modulating or participating panels in conferences and summits.

Service Deployment & Club-Deals Facilitation

- Work closely with reputable organization & independent consultants for bolstering members and wealth owners in facilitating club deal or direct investment projects; setting up or advising on their family offices, family governance bodies and charters, trust or foundation, private funds, managing financial due diligence, project valuation, outward private investment, offshore incorporation or acquisition and corporate advisory.
- Serve the on-shore practitioners and wealth owners in outbound investment and assisting foreign investors in placing inward investment in Asia and facilitating cross-border collaboration.
- Assist senior practitioners to establish their independent offices or advisory firms, develop private practices and gear up their specialty team, infrastructure and operation.

Sustainability, Philanthropy & Consultancy Service

- Set up Missions Action Group and lead a team of volunteers in puring the vision of making a better world together with stakeholders. The workstreams cover philanthropy & legacy as well as sustainability & SDGs implementation.
- Offer consultancy work for financial institutions in China & South East Asia in setting up their multi-family offices and provide advisory services to global independent investment boutiques in venturing Asia.
- Offer consultancy work for next generation leaders, ultra-wealthy families and entrepreneurs to address individualized goals or objectives. Scopes of work cover SDGs implementation, impact programs, IMM for all impact projects, succession management, family governance, segregation between family or corporate assets, structured finance, personal development etc.

Industry Support (Technology, Research, Professional Development)

- Manage a portal development project to launch a series of electronic membership services covering Application Programs Interface (API) to a range of fintech solutions, match-making services for offshore & onshore impact projects, real asset exchange platform, e-learning portal, digital platform releasing industry news, research, data, also a marketplace for passion investment such as jet, yacht, lux car, fine art, antique, wine & stamp.
- Conduct market research and extensively seek feedback and opinion from industry practitioners on regulatory policy, business practices and market dynamic.
- Team up with reputable US & Europe universities to introduce and launch a series of accredited programs with global certification standards for raising the professionalism & recognition of industry practitioners.
