Work Experience

Head of Digital Experience & Product Solutions, Telstra, Hong Kong 03/2024 - Present

Leading / providing direction and alignment to a global function with a team of ~600 professionals across Product, IT, Digitization, and launch mgmt. with a project budget of AUD ~60Mln/year. The initiatives planned drove an incremental revenue of AUD ~100M over 3 years and cost savings of AUD ~10 Mln

Key responsibilities:

- Ensure alignment on roadmap and priorities between demand functions and delivery functions.
- Align, develop, & prioritize along with our stakeholders two key roadmaps: one for digital capabilities required to run the business efficiently & improve our user & customer experience; & a 2nd focusing on products required to grow the business & meet commitments.
- Establish the PMO office to run and deliver the programs agreed upon in the above road maps along with our delivery partners.
- Ensure that our tools are future ready and secure and establish relationships with our partners/suppliers.

Head of Business Transformation, Telstra, Hong Kong 07/2022 – 03/2024

Leading a global team of 100+ professionals with a project budget of AUD ~38Mln/year. The initiatives planned for FY24 were forecasted to drive an incremental revenue over the next 3 years of AUD ~20M and cost savings of AUD ~5 Mln

Key responsibilities:

- Rebuild and up-skill the launch & program mgmt team to enable faster and less costly launches.
- Lead negotiations with partners on building an innovative strategic platform that can disrupt the SD-WAN market.
- Launch 90+ product offerings and enhancements.
- Transform the customer E2E journey including operating model, processes, and systems across the E2E telco value.
- Build a flexible & agile team and process to cope with the ever-changing priorities of the business stakeholders

Head of Digital Transformation, Telstra, Hong Kong 06/2019 – 07/2022

Leading a global team of ~50 professionals that is responsible for the digital transformation of the several legacy systems. Notable programs that resulted in significant efficiencies & cost savings:

- Building a Digital Transformation team with a clear vision, mission, and high performance / agile culture that is aligned with the needs and visions of our stakeholders.
- Implement a new CRM, Order Orchestration, infrastructure and Service Inventory tool, customer & supplier facing Portals and APIs that were crucial for unlocking efficiencies to support our cost reduction efforts.

- Defining and implementing / rolling out new processes, frameworks, tools, and governance forums for the newly established Digital Transformation teams

General Manager Marketing & Pricing, Telstra, Hong Kong 02/2018 – 05/2019

Leading a team of 75+ pricing & marketing professionals across the globe. Key responsibilities include:

- Responsible for setting & implementing the overall pricing strategy.
- Developed & implemented a successful retention program for TI's top customers that resulted in the reduction of hard churn and soft churn by 15% & 30% respectively.
- Alignment of Int'ls marketing strategy with domestic marketing teams
- Provided support to sales teams in commercial / price negotiations and helping to close one of International's biggest wholesale deals at the time worth AUD 125M over a 5-year period.
- Provided commercial / pricing modelling support for cable investments.

General Manager International Pricing, Telstra, Hong Kong 01/2014 – 01/2018
General Manager Pricing Strategy & Operations, Telstra, Singapore
Head of Pricing Strategy, Telstra, Singapore

Leading a team of 50+ pricing professionals across the globe. Key responsibilities include:

- Optimization & digitization of the pricing function which helped achieve a ~70% improvement in customized pricing turn-around time.
- Responsible for an outsourcing initiative of some functions which resulted in 30% cost savings.
- Responsible for the development of an overall pricing strategy, setting & maintaining prices through a data driven approach for a variety of global B2B products across different channels in 40+ countries.
- Led a very successful and seamless integration of the pricing units of Telstra & Pacnet when Telstra acquired Pacnet in mid-2015
- Partnered with sales on developing strategies to win complex deals

Engagement Manager, Strategy & Operations, 09/2012 -12/2013
Telecom Media Technology Practice, Deloitte, Singapore
